Trouble Brewing Since Resignation of Gen. Beyers as Commander.
MARTIAL LAW DECLARED THROUGHOUT WHOLE UNION
Most Vigorous Steps to Inflict Punishment on All Traitors.

Bulletin—Capetown, South Africa, Oct. 13.—It has been officially announced here that a command under Col. Martiz has rebelled in the north-west of the cape province.
Martial law has been proclaimed throughout the nation.
London, Oct. 13.—(1.10 p.m.)—The official press bureau today issued the text of a telegram received by the secretary of the colonies from the governor general of South Africa, which was as follows:
"Ever since the resignation of Gen. Beyers as commander of the citizen force, there have been indications that something was wrong with the forces in the north-west cape province, which were placed under command of Lieut-Colonel S. G. Martiz.
"The government at once arranged for Colonel Martiz to take over the command from Lieut-Colonel Martiz. On October 8 Colonel Martiz sent a message to Colonel Martiz to come in and report to him. To this message Colonel Martiz replied in a most insolent manner that he was not going to report to anybody. All he wanted was his discharge and Colonel Martiz must come and take over his command.
"Colonel Martiz then sent Major Ben Bourner to take over the command. On his arrival at Colonel Martiz's camp he was taken prisoner with his companions, but personally he was subsequently released and sent back with an ultimatum from Colonel Martiz to the union government to the effect that unless the government guaranteed to him before 10 o'clock Saturday morning, October 11, that they should allow General Hertog, De Wet, Kemp and Muller to meet him where he was in order that he might receive instructions from them, he would forthwith make an attack on Colonel Martiz's forces and proceed further to invade the union.
"Major Ben Bourner reported that Colonel Martiz was in possession of guns belonging to Germans and that he held the rank of general, commanding the German troops. He had a force of German under him in addition to his own rebel command. He had arrested all those of his officers and men who were unwilling to join the Germans and had sent them as prisoners to German southwest Africa.
"Major Bourner saw an agreement between Colonel Martiz and the governor of the German southwest Africa guaranteeing the independence of the union as a republic, ceding Walvis Bay and certain other portions of the union to the Germans and undertaking that the Germans would only invade the union on the invitation of Colonel Martiz.
"Major Bourner was shown numerous telegrams and helio messages dating back to the beginning of September. Colonel Martiz boasted that he had ample guns, rifles, ammunition and money for the Germans and that he would overrun the whole of South Africa.
"In view of this state of affairs, the government is taking the most vigorous steps to stamp out the rebellion and to inflict punishment on all rebels and traitors.
"A proclamation declaring martial law throughout the union will appear in the Gazette extraordinary today, Monday, October 12, 1914.
"(Signed) Huxton, governor general of South Africa."

"The relief of the stronghold of Przemyśl has been completed. To the north and to the south of this fortress what remains of the hostile army has been attacked.
"Jaroslau and Leczak are in our possession."

FORMER POSTMASTER
GENERAL OF CANADA
THOUGHT BE KILLED

Toronto, Oct. 13.—Antwerp's fall after a heroic defence against German invasion, may signify Canada's first immediate and personal participation in the sacrifice of Britain's share in the defence of Europe. It is feared by his friends in Canada that the cabinet, who has been in active service in the army medical corps in Belgium since the commencement of the war, is among those who declined to leave the wounded on the capital of the city, and remained to be a prisoner of war, if not a worse fate.

GERMANS REPULSED BY MUSCOVITES ON PRUSSIAN FRONTIER

Enemy Trying Hard to Make Stand by Using Railways to Shift Men.

AUSTRIANS ADVANCING
IN SEVERAL DIRECTIONS

Column is Put to Flight by Heavy Cross Fire—Loss is Heavy.

Washington, Oct. 13.—Colonel Godelow, Russian military attaché in Washington, issued last night the following statement, based on a cablegram from his government:
"A successful engagement took place between the advanced squadrons of our strategic cavalry and the enemy's scouts. The Germans were cut down, the remainder being driven back, leaving in our hands many prisoners. His highness Prince Constantinovich (son of the Grand Duke Constantine) was leading a charge and was the first to reach the enemy. His highness was shot through the leg, but the wound is not serious.
"On the east Prussian front there are no important changes. The Germans are trying to make a stand on the frontier line, using the network of frontier railways for constant shifting of troops along this front.
"On the left bank of the Vistula on October 10, fighting took place between the advance guards on both sides.
"In Galicia the Austrians are advancing in several directions. In spite of the extremely cautious character of the advance of their cavalry near Rukovik the Russians succeeded in bringing an Austrian column in marching order under cross fire, and throwing the main part of it into confusion and rout."

Rudolph: Slow Ball Artist, Pitches Masterfully and Wins His Second Game

Fenway Park, Boston, Oct. 13.—The Boston Braves are the world's champions of 1914. They defeated the Philadelphia Athletics today by the score of 3 to 1, winning the series with four straight games, the champions of the American league not capturing a single contest.

Rudolph pitched a masterful game, winning his second contest of the series today. The Philadelphia club could not catch his elusive slow ball when hits would have sent runs over the plate.

The Boston outfielders outplayed their opponents today in every department of the game. They clinched their victory in the fifth inning after two men were out, with Rudolph's single, Moran's double and Evers' solid blow to center. It is the first time that a world's series has been won in four straight games and after the last man was out the Athletics rushed over and congratulated their rivals. The spectators went with joy and paraded the field singing and cheering. The official box score:

THOUGHT POLAND TO BE SCENE OF DECISIVE BATTLE

Berlin Admits Withdrawal of Troops From Niemen River But Says Position Was of No Strategic Importance—Little Change in Situation at Aine But Allies Have Slight Advantage—Holding of Some Forts at Antwerp May Upset Plans of Teutons to Send Reinforcements to Their Right Wing.

London, Oct. 12.—(10.59 a.m.)—All eyes today are turned to the eastward, where, under conditions of the utmost secrecy, the Teutonic allies and the Russians are preparing to engage in what may prove to be one of the most decisive battles of the war.

Evidence is accumulating to show that this conflict will be determined in Russian Poland, and many question disturbing the British experts as to which side has chosen the battle ground.

Herin admits having withdrawn from the Niemen river and at the same time discounts the whole movement in that region as being of no strategic importance.

It is now clear that Russia has abandoned the narrow point in Galicia between Przemyśl and Cracow. Russian sources having virtually occupied all those places. Petrograd claims this operation is due to strategic reasons, while Vienna maintains that rejuvenated armies have relieved the Przemyśl fortresses and driven the invaders out. It is questioned that the more or less demoralized Austrian forces, stiffened by German reinforcements, have recouped the offensive, but there is no information here to indicate that the Russian retreatment is anything in the nature of a rout resulting from vigorous fighting.

Whatever may be the intention of the armies operating on the great Russian battle front, it is clear that the

ROASTS CHURCHILL FOR WHAT ALLEGED VERY BAD BLUNDER

Morning Post Says Costly "Blunder" at Antwerp Lost Many Lives.

Should Have Sent Big Force or None at All. Stated Belgians Would Not Have Defended City But for British Advice.

London, Oct. 12.—(2.10 p.m.)—The Morning Post, in an editorial today severely attacks Right Hon. Winston Churchill, first lord of the admiralty, for what it describes as a costly blunder in sending a small force of marines to Antwerp. The newspaper expresses the belief that the British losses are greater than admitted, and contends that if it were impossible to send a large military force to Antwerp, none at all should have been sent and the Belgians permitted to surrender without bombardment, "as they would have done but for British advice, which only resulted in loss of life and hampering the retirement of the Belgian army."

London, Oct. 12.—(Definite information has been received here that the Queen of the Belgians, notwithstanding the report last week that she had reached England, has not left Ostend for London.

GERMANS POLICE ANYWHERE, INVITE REFUGEES RETURN

Soldiers Using the City's Appliances to Put Out Fires There.

TEUTONS HAVE TRIUMPHANT MARCH WHEN CITY TAKEN

Entered Town Singing, Many Having Nosegays on Their Tunics.

Amsterdam, Oct. 12.—Up to the present, the Germans have done no plundering in Antwerp and the city is well policed by armed soldiers. The soldiers are using the city's appliances to extinguish the fires that still smoulder in buildings wrecked by shelling, but the supply seems inadequate.

Many instances of hurried flight are to be found in the streets by every one of the people left in the streets by refugees who found that they had brought from home more than they could carry away. In the streets on the outskirts are Belgian guns still in position and hastily formed barricades. The Germans seem anxious for the population to return and promise their safety if they behave peaceably. Some of the people have already returned but there does not appear to be any general tendency in that direction.

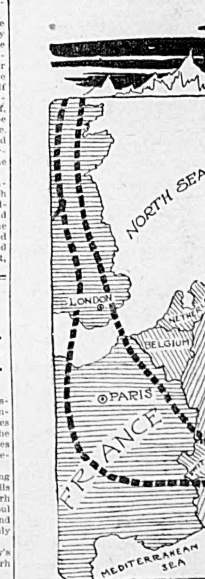

The German soldiers entered the town singing. Many were decorated with flowers having nougats in their hands. In the middle of their rifles in their horses' bridles. But this triumph was only for spectacular purposes and most of the troops afterward marched out again to camp on the outskirts. There are now few German soldiers in the city except in the square before the Hotel de Ville.

As regards the damage inflicted by the shells the following details are obtained from the testimony of observers but the list must not be taken as being complete. Among the buildings destroyed were the Palace de Justice, a synagogue, St. Joseph church, the Hippodrome, the Minerva motor works and Thienckens car factory in the place De Meir. Very serious damage was done chiefly in the southern part of the town and in the suburbs of Berchem and Seurre.

It was pathetic experience while compiling this list to be surrounded by Belgians asking what news there was of their homes.

Vancouver, Oct. 12.—Mrs. Isaac W. Brown, aged 35 years, a native of Ontario, struck Saturday night by an automobile on Gilmour street, died yesterday. The car was driven by J. Stevens of Shaughnessy Heights.

GENERAL WINTER.

The accompanying diagram shows the march of winter months by month from his base in the Arctic southward through the European continent. As of October he makes his presence felt and from then on he moves gradually southward until his furthest lines are well into France.

Everything to the north of the battle lines shown is subject to an average temperature of 40 degrees or colder. This is the weather which prevails in the central part of the United States in January. In such weather the average is wide, however, and the mercury varies from an average of 17 degrees in Petrograd, where the temperature often drops to 20 below zero, to an average of 35 degrees in London, where it is only a few degrees below zero.

Of course everything possible is being done to insure the comfort of the fighters. Women of all classes all over Europe are knitting woolen caps and socks and mittens. Factories are

RUSSIANS CAPTURE ENEMY'S BATTERIES AFTER HARD BATTLE

After Seven Days' Continuous Fighting Germans Driven Back.

London, Oct. 12.—(6.59 a.m.)—A despatch in Reuters from Petrograd says:

"It is evident that a big battle was fought at the village of Raacki (midway between Augustow and Suwalki) after the defeat of the Germans at Augustow."

The German right wing rested on Raacki. On October 8 the Russians, after seven days of continuous fighting, drove out the Germans who crossed the river and then pointed their guns on the hills. Several batteries, including those sent as reinforcements from Konigsberg, were captured.

turning out overcasts and snows by the hundred, but to supply six to ten million men in the field by the time cold weather sets in is a hopeless task. The armies may go into winter quarters as the Americans did during the winter of 1913-14, but such a strategy is hardly possible in 1914. Food is too scarce on both sides, money is too tight, the job to be done too big.

GERMAN AIRMAN DROPS BOMBS ON OSTEND BUT MISSILES DON'T GO OFF

London, Oct. 12.—(7.50 a.m.)—A despatch to the Times from Ostend says that a German aviator dropped two bombs on Ostend Monday. Neither of the missiles exploded.

The correspondent adds that the Germans occupied Ghent at seven o'clock Monday morning and that refugees from that city are coming into Ostend.

HORSE FLESH NOW IS USED IN MANY HOTELS AT OSTEND

Stated There Are 20,000 Refugees Now There, But Rush Has Ceased.

MANY WEALTHY PEOPLE
LOSE ALL POSSESSIONS

In Retreat of Field Army Many Soldiers Collapsed From Hard Strain.

Ostend, Oct. 12.—There are 20,000 refugees in Ostend, but the rush hither from inland has ceased. A great queue begins to form in the immense hall of the Maritime station at five a.m. each day and the passengers still waiting for permits to board the boats at 7.30 yesterday numbered more than a thousand.

The plight of many of these refugees is pitiable in the extreme, but there are very many well dressed people among them, perhaps scarcely less pitiable, for in many cases their homes and all their possessions have been utterly destroyed.

In the retreat of the field army which had been defending Antwerp along the one road still kept open to the west, fighting continuously for 14 days, snatching hurried naps on the bare pavement or ground, hundreds collapsed on the march and had to be left behind at various points, which the Germans had not yet reached, to follow after treatment and rest.

Horse meat has been substituted for beef in almost all the hotels, there is no lack of food at normal prices. Every day spies are arrested in and about Ostend. One man was seized after chalking in a corner of a village railway station some figures and letters supposed to indicate the allies strength of defences in the neighborhood. He was dressed in simple peasant dress and showed no traces of being a man of superior education, which with incriminating memorandum and the chalk marks at the station, sealed his doom.

A German officer was arrested in the main street of Ostend yesterday, wearing a Belgian officer's uniform. He was nearly torn to pieces by a crowd before he could be gotten to the police station.

THREE THOUSAND PEOPLE KILLED BY EARTHQUAKE KONIA PROVINCE, TURKEY

Washington, Oct. 12.—More than 3,000 people were lost in the earthquake in the province of Konia, Turkey, Oct. 5, according to a cablegram today from Ambassador Morganthau to the state department. Thousands of buildings were destroyed rendering countless numbers of people homeless.

Ambassador Morganthau was unofficially requested by the minister of the interior of the Turkish government to select help from the people of the United States through the red cross and other organizations as the Turkish people were declared to be so impoverished that they render practically no assistance to their suffering compatriots.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2½ ounces of Pinex and make it into 16 ounces of cough syrup, and watch that cough vanish.

Pour the 2½ ounces Pinex (50 cents worth) into a 16-ounce bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you 16 ounces—a family supply—of a most effective remedy. A day's use will usually overcome a severe cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and leads the inflamed membranes in a painful cough. It also stops the formation of phlegm and other irritants in the throat and bronchial tubes, thus ending the persistent hoarse cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

WHY NOT OFFER THE BELGIANS NEW HOMES?

In an area of 11,373 square miles Belgium, according to the last official census, had a population of 7,074,910, a density of 600 to the square mile. Belgium last year exported goods to the value of 3,951,064,000 francs and imported goods to the value of 4,958,700,199 francs, the exchange value of a franc being about 19½ cents.

As these figures indicate, Belgium had reached the highest degree of civilization of any country in the world, a civilization under which it had accomplished the remarkable achievement of maintaining the most dense population in the world in a condition of comparative comfort, of building a marvellously flourishing trade with the world, and of bringing to the masses of the people the highest standards of living.

In weaving, lace-making and all the textile lines Belgian products are of world renown. Their coal mines produced enormous wealth and their iron workings were marvels of organization in industrialism. Their architectural achievements were among the most beautiful in the world and their progress in science, in literature and in the arts made theirs quite the equal of that of any other country in Europe. In cities and towns have given the world some remarkable examples of municipal possibilities and in their educational provisions they have proven to the world that Belgium typified the highest ideals of civilization by recognizing that the first duty of the state is to look after its children. But it is in the perfection to which Belgium has brought the science of agriculture that their greatest achievement has been recorded. Within their limited area, the Belgians have intensified agriculture until they have outstripped in productivity the storied gardens of the Yang Tse. Upon their miniature farms, they have produced not one crop, but two, and quite frequently three, crops upon each acre every year. Plots no larger than a dozen city lots have been made to support a family and to keep it profitably occupied throughout the year. So valuable has land been considered in that country that, like Holland, thousands of acres have been reclaimed from the sea. Yet Belgium has been able to produce, in the most desirable garden products, sufficient for themselves and to have some left for export to the big cities of Britain and Germany.

This was the civilization which was thrown into the furnace of war in concession to duty as the Belgians saw it. When the Germans demanded a clear right of way across their territory, the Belgians had no hesitancy in reaching their answer. They might have saved their country, but their conception of the sacredness of their obligations to their neighbors did not permit of a contemplation of such a course. With full knowledge, no doubt, of the extent of the sacrifice, they determined to make it, and Belgium became the theater of war.

Today this civilization which was Belgium is a wreck. Louvain, the university center and the home of culture, has been destroyed, its men murdered, its women ravaged, its magnificent buildings burned. Brussels, in the hands of the enemy, faces the menace of almost certain destruction. In the hands of the enemy, is a city of 1,000,000 people. Hundreds of thousands of Belgians have been driven empty-handed, across the border into Holland where, homeless and unwelcome, they find a temporary sanctuary from the invading hordes. Other thousands are in Britain dependent upon charity. Those who have been unable to flee are in the hands of a ruthless enemy, their lives forfeit upon the slightest provocation, or no provocation at all, and their very sustenance being taken from them to feed the vandals of the Kaiser.

All this constitutes an obligation which the British people owe the Belgians. Belgium has fulfilled her part of the compact at an expense in misery and loss of homes such as no people in modern times has ever before been called upon to suffer. Britain's obligation is to see that these people are re-established in homes where they may pursue happiness, and Canada, as an integral part of the empire, is a party to that obligation.

Where Belgium had but little land and many people, Canada has much land and few people. Vancouver Island, for instance, of an almost identical area with Belgium, has, in climate and soil and the variety of its products, much in common with Belgium. It grows, in small quantities, the same things Belgium grows. It has coal and fish in unlimited abundance, and has all the natural resources which, in the hands of a people like the Belgians, would make it a rich and busy workshop to civilization on the western side of the continent. But it has no people and the natural resources, so prodigally showered upon that land, lie dormant. Alberta, although not as well suited climatically to the purpose, has immense undeveloped areas, sufficiently extensive to absorb the entire population of Belgium, if need be, and still leave plenty of room for our own people and any others who wanted to come.

The number of people now refugees from Belgium in Holland and England would transform Alberta and British Columbia into a thriving and teeming source of unlimited wealth. Under any circumstance, these people must not be allowed to become dependent upon an overworked charity in a country offering no outlet for their industry.

Canada now has thirty ships in the English channel, used as transports to take the Canadian contingent to the war front. Why not load them with refugee Belgians and bring them via Panama to the west coast of this continent where the climate is not too rigorous, bringing those most adaptable for settlement upon the prairie through the mountains to cultivate the enormous stretches of Alberta soil that awaits the plow?

The order is a large one, which would take millions upon millions of dollars to carry out, but looked at from the most sordid and materialistic point of view, it would be an immense and profitable undertaking for Canada, guaranteeing the development of the western half of this dominion with a speed and thoroughness which could in no other manner be attained.

Under any circumstance these Belgians must make new homes. Their own have been destroyed, and they themselves exiled. The time that will elapse before the war closes and they are able to return to their own devastated country—and the fortunes of war may make it no longer theirs—quite probably will be sufficient in which they might establish themselves on this continent.

A MASSACRE TO BE LAUNCHED IN THE NIGHT.

As to whose is the responsibility for this war, the question no longer admits of possible doubt. In the country around Lille the allies have been fighting for weeks attempting to drive the Germans out of the stone quarries where their guns are mounted upon concrete bases built before the war. These quarries are in French territory. German owners, who had come into France long since to buy the quarries, took out the stone in such a way that the excavations constituted prepared fortifications, and the concrete bases, disguised as the bases for derricks and one thing and another in the way of machinery, were all ready for the cannons which were on the cars at Krupp's before war was declared.

Meanwhile, Kitchener is having difficulty getting the equipment and rifles for his second quarter of a million.

What Germany proposed in this thing was not war, but a massacre, to be launched in the night against a people confiding in the good faith of fair-spoken neighbors.

ARSENIC IS FOUND IN HOT SPRINGS OF ARROWHEAD, CALIF.

Only One Other Similar Spring In the World—Is In France

P. C. S. Sanders, M.D., the well-known British physician and author of "Tropical Diseases of the Skin and Kidneys," recently visited Arrowhead Hot Springs, California, to secure data for his new work, "California as a Health Resort." When he saw the mineral cures being effected by these waters, he suspected the natural presence of arsenic. He was led to this suspicion from his comprehensive experience with the waters at La Bourboule, France, which were considered the only arsenic waters in the world.

Dr. Sanders proceeded to verify his belief and had the water analyzed by Curtis and Tompkins' chemists, whose report establishes the presence of arsenic as a fact.

In commenting upon the discovery, Dr. Sanders says: "The water, when cooled sufficiently is palatable and pleasant and will be found of sovereign service medically in the hands of skilled physicians. Dipsomium arsenate, a natural mineral water, acts as an alternative; it increases the appetite and digestion and improves the whole nutrition of the body. Such rare waters as these are especially valuable in the treatment of anemic and certain skin diseases."

It is said that if these springs were located in the old country, all Europe would flock there for the tonic benefit to be derived.

Story of Siege and Fall of Antwerp Told in Diary

British Reinforcements Put up Great Fight But Germans Had Too Great Advantage Before Their Arrival—Position From First Seemed Hopeless.

LONDON, Oct. 12. (5:20 a.m.)—The story of the siege of Antwerp, told in the form of a diary which chronicles the events even taking place between October 2 and October 19, has been sent to the morning Post by its anti-war correspondent. The diary follows: "Oct. 2.—The position seemed practically hopeless—the southern section of the fort having been subdued and the Belgian field artillery being unable to stand out against the heavier guns of the Germans—and the surrender of the city on Sunday, October 3, seemed likely until this evening when news came that the British help was arriving. So great was the power of the British name that the spirits at once rose, both among the populace and the soldiers."

"Oct. 3.—A wave of almost fanatical confidence runs over the city. Preparations for the departure of the government have been suspended and the word has been passed that the situation is saved. The king and queen are still in the city."

"Oct. 4.—The cheerfulness continues. The churches were crowded all day. There is a lull in the German attack. The first British forces actually arrive. They hold the trenches under a galling artillery fire which was so well directed as to be proof that spies within Antwerp had given to the Germans the position. When the Germans once ventured into the open we moved them down. Scarcely one of them got back safely. The map shows that the German attack necessarily must have been centered at Lieke because this route was the one offering the least resistance to the advance of the big guns. Therefore one real issue of the battle was to hold the Nethe river."

"Oct. 5.—All day Monday the Nethe river was held with the help of further British reinforcements, but even these proved that this powerful aid, which would have been sufficient a week earlier, was not sufficient now when a section of the fortifications already had been captured. The outer suburbs began to suffer from the shell fire but confidence is still general in the city."

"Oct. 6.—The German circle of fire id not sufficient."

"Oct. 7.—The night was clear with the glare of burning houses. Occasionally a shriek of a woman or the wail of a child, broke in upon the listless plodding of the fugitives."

"Shells came in clusters of six, very methodically into one particular quarter, and then the guns were reflected a little to attack another quarter. The Belgians etched on the wall of the town the names of the Scheldt bridges on their way to Ostend."

"On the battle line the Scheldt bridges yielded little by little. By daylight they got successfully across the Scheldt bridges on their way to Ostend."

"Vancouver, Oct. 13.—C. G. Fenwick, formerly manager of the Bank of Ottawa, here and later general manager of the Bank of Vancouver, has been appointed managing director of the Dominion Trust company, in succession to W. R. Arnold, who was killed yesterday."

M'GILL CHAMPIONS
BEAT OUT OTTAWA

Have Hard Game Finally Winning 8 to 7—Williams Fine Work.

Ottawa, Oct. 12.—Jack Williams Rough Riders, who are now playing under the colors of the St. Patrick's association, made their debut at Lansdowne Park yesterday afternoon and met defeat at the hands of the McGill club, the intercollegiate champions winning by a score of 7 to 6. St. Patrick's played far ahead of expectations and showed that they will make good in the O. R. P. U. McGill without Laing and Badden, played their hardest. Features of the game were a drop goal from 40 yards out by Jack Williams and some good defensive work by Paisley and Wollatt of McGill. Kilt and Nagle did some wonderful tackling for St. Patrick's breaking up many of the McGill plays.

ATHLETICS ARE FIGHTING
WITH BACKS TO THE WALL

Defeat Today Means Elimination From Series—Bender Will Probably Oppose Rudolph—Players Share Not as Large As in Former Years.

Boston, Mass., Oct. 12.—A northerly breeze brought slightly cooler air for today's world's series game between the Athletics and the Boston Braves. The sky was partly overcast, but there was no prospect of rain.

A defeat today is a serious matter for the Athletics for it means their elimination from the world's series. Defeated in three successive games, one of which will be writ large in baseball history, the American league contenders face the necessity of winning four straight games, a herculean task and one which to the average fan seems impossible. On the other hand Boston requires but one game won to give them the baseball championship of the world.

Connie Mack held a long session with his players last night, and they discussed the plan of campaign from all angles. The Braves had their session in the club house where Stallins laid down his orders for the day. Players on both sides express the belief that Rudolph and Bender will again oppose each other in this crucial test. Although badly worsted in the first argument of the series it is believed that three days of rest has put the Braves back into form and Connie Mack thinks that he will be able to perform the come-back stunt.

The Boston army is confident and they will take the field with the expectation of performing a feat never before accomplished in a world series.

namely winning the title in four straight games. At the gate they are now travelling light is a strong possibility that they may do it.

Gowdy is the hero of the hour. The low headed catcher whose hitting has never been equalled in a championship series, is the idol of Boston. Receipts for the first four games will probably total \$25,000, on a total attendance of 110,000. The players' share of the money will be about \$115,000, considerably less than two years ago, and somewhat less than a year ago. Yesterday set a new record of \$5,329 for attendance at a world's series match. It is improbable that this mark will be approximated today.

Some Score.
Calgary, Oct. 12.—By shutting out Calgary University and winning by the score of 31 to 6, the Calgary collegians established somewhat of a record for western rugby yesterday. The collegians scored eight tries, six of which were converted, a field goal and a safety touch. Last year the Collegians won the junior championship of Alberta and this season are entered for the intermediate provincial title.

University Won.
Saskatoon, Oct. 12.—Eight to five in favor of the University was the final score in yesterday's rugby game with the city team. The students showed the result of their greater practice and won out by persistent tactics. The muddy field made the game slow, but the choosers of the score throughout kept the interest of the big crowd on edge.

The next game between the same teams will be played soon. The winner of a three game series will play the winner of the Regina-Moose series for the championship of the province.

BILLY RYLE WILL
MEET ALL COMERS

Local Billiard Expert Will Give Spot of Ten at Three Cushions.

Starting tonight, Billy Ryle will play three cushion caroms with all comers at the Empire billiard hall and give a prize to the player who beats him or makes the highest score. He will play 50 points to his opponent 40.

Of late the three cushion game has caught on in the city, and some of the boys are developing fairly good form at it. The probabilities are that some of them will make the local expert travel fast if he is going to register a win for a spot of ten is a large item in three cushions.

His opponents for this week will be Dr. Young, Archie Kay, George Sharp and George King. The latter will not take part in the tournament which was recently completed, as he was out of the city, but he is considered one of the strongest players in Edmonton, and when he plays tonight should provide a good game.

Another Accidental Shooting.
Vancouver, Oct. 12.—Shelby C. Stephenson, aged 30 years, was killed today in a shooting accident near Hope, B.C.

Sentenced to Eight Years.
Owen Sound, Ont., Oct. 12.—Henry Batterman, a well-to-do farmer and an ex-convict of Sullivan township, was at the fall assizes sentenced to eight years in Kingston penitentiary on a charge of criminal assault.

REGINA CAPTURES
THIRD STRAIGHT

Cinches South Sask. Championship by Beating Moose Jaw 6 to 0.

Regina, Oct. 12.—By taking yesterday's rugby game from Moose Jaw by a score of 6 to 0, Regina clinched the southern division of the S. R. P. U. The game was not as exciting as either of the former games between these two teams even if it was more evenly contested. The play was of a closer nature than in the former games. Regina scored all her points on rushes and at no time was in any great danger of having her opponents score. Wilson, Regina's crack half, showed up well but Abbott and Sam Taylor ran a close race for honors. For Moose Jaw Captain Townsend and Mizewski were the strong men.

HAMILTON WINS
CLOSE CONTEST

Defeat Toronto R. and A.A. in the Last Minute of Play.—Score 8 to 7.

Toronto, Oct. 12.—In a senior Ontario rugby football match yesterday afternoon Hamilton flowing club defeated Toronto R. and A.A. by a score of 8 to 7. With one minute to play the visitors by a series of runs, kicks and backs, carried the ball over the local line, which saved them the victory.

Two more evenly matched teams have not been seen for some time on a local field, and although there was much rough play and unnecessary handling of the men with the ball the game was replete with combined runs and good catching and kicking on the part of the respective back field players.

STRUNK OUT OF GAME
FOR REST OF SEASON
ACCOUNT OF ABSCESS

Boston, Oct. 12.—Strunk center fielder for the Philadelphia club, will be out of the game for the rest of the series. It was learned last night. When the Philadelphia players returned from Fenway park, they found Strunk with one hand heavily bandaged on account of an abscess which had been forming for several days. His loss will be particularly felt by the Athletics because up to today he was the only one of the American leaguers hitting anywhere near true form.

INITIAL GAME OF RUGBY
LEAGUE GOES TO CIVICS

Defeat University of Alberta 10 to 3—Students Lead 3 to 1 at Half Time—But Fall Down in Second Period—Large Crowd of Spectators Present.

After being outplayed in the first half of the first game of the Edmonton Rugby league yesterday, the Civics rallied in the second period and won handsomely from their opponents, Varsity, by the score of 19 to 3.

A large crowd of fans was present to witness the contest, there being at least 2,000 people on the side lines and in the stands. There were few tricks of a startling nature pulled off, both teams mainly relying to straight football. When something in the way of a fake was started, it usually was ineffective.

Varsity started off strong, and on several occasions broke through the Civics' line with surprising ease. The latter had some close calls and only fast work by the backs saved the situation time after time. Varsity had a slight advantage with the wind in this half and they made nice advances, mainly by "electro" kicks. Shortly before half time Varsity registered their first counters, when Farrer dropped the oblong over the bars from the field for three.

Apparently Deacon White injected something into the Civics during the recess, for when they started the second period they played with more vim and apparent determination to win. Varsity began to lag and several costly muffs also contributed to the downfall of the college men. It was a miff which gave Kinnaird the opportunity to cross the Varsity line for the first and last touchdown of the game, putting the Civics ahead. They did not attempt to convert it. The Civics gained their next point when Beecroft was forced to rouge and later Jimmy Bill kicked the piskin over the Varsity cross bar or the final corners of the contest.

Largely owing to the nature of the play on several occasions men were injured. In the last half Brown and Fraser of Varsity had to retire for this reason. There were a few scraps and the officials had to hand out some penalties occasionally. A couple of those leached evinced a desire to continue the argument on the sidelines, and for a moment it looked as though there might be a free-for-all. Fortunately nothing developed.

For the Civics Bill and Dykes played a nice game. Christy, Kinnaird, Wier, Stearns, Altherton and Cornacki did well on the line. Rasmussen and Stewart showed though they were a little inexperienced, but with their beautiful physiques should develop into fine players.

Except for some fumbles which proved disastrous the Varsity half back line played a fairly good game. They made some good advances and Deacon's runs were effective. The whole team appears promising and with some more practising may pull off a surprise at the next meeting. Line-up: Varsity—Backs, Beatty, Beecroft and Parker; quarter back, James; scrum, Dore, Hilly and Rasmussen; inside wings, Fitzgerald and Trelle; outside wings, Ames and Farrer; outside half, McClelland and Brown; flying wing, Fraser. Perraton replaced Brown.

Civics—Backs, Dykes, Bill and Whitelaw; quarter back, McLaren; scrum, Christy, K. Kinnaird and McKewen; inside wings, Stuart and Rasmussen; middle wings, Altherton and Stearns; outside wings, Bladen and Cornacki; flying wing, Whitelaw; English replaced Dykes; Stearns replaced Whitelaw.

Referee, Percy Hardisty; umpire, Dr. Whill Lailey.

Scores.
First half—Varsity: Drop kick over goal, Parker 3 points. Civics: Kick to dead line, Bill, one point. Score 3-1, favor Varsity.
Second half—Civics: Touchdown, K. Kinnaird, 5 points; Civics, rouge, one point; Civics, drop kick over goal, 3 points, Bill. Final score: Civics, 19, Varsity, 3.

Penalties.
Parr (Varsity), K. Kinnaird (Civics), twice; Rasmussen (Civics), Trelle (Varsity).

WHITE SOX TAKE
GAME FROM CUBS

Nationals Lead by One Game—Giants Again Beat Yanks.

Chicago, Oct. 12.—The American leaguers beat the Nationals in the fifth game of the city series, by 1 to 0 yesterday. The games now stand, Nationals 3; Americans 2.

Score:
Nationals 000 100 000—1 0 0
Americans 000 020 100—3 0 0
Cheney and Bresnahan; Scott and Fisher, Schalk.

Giants Win.
New York, Oct. 12.—The New York Nationals made it three out of four today by winning 6 to 1 in the Manhattan championship series. Fromm picked a splendid game. The Yankees now must win three straight to take the series.

Score:
Nationals 020 111 100—6 10 1
Yankees 000 000 000—1 0 0
Promme and Meyer; McClelland; Keating, Cole and Sweeney.

Portland's Fumble Loses Game.
Winnipeg, Oct. 12.—The Winnipeg Rowing club took the lead for the Manitoba Rugby championship here yesterday when they downed the Tigers 10 to 1 in a fairly interesting game. A fumble by Portland gave the winners their only try, but they deserved their victory on the play. It looks like Rowing club to repeat this year, having to win one more game to clinch the series.
